

MISSION, VISION, and PLAN
**Haverhill High School's Enterprising Business and Informational
Technology Academy**

The Haverhill High School EBiT Academy is a competitive school within a school which will provide students with the opportunity to integrate academic and occupation-related instruction in the areas of Business and Technology.

The goal of the EBiT Academy is to provide a supportive academic environment that creates opportunities for its students that will include exposure to a wide spectrum of post graduate options, marketable job skills, and related job experience. This challenging and diverse educational experience will prepare students for success in life, education, and the 21st century global marketplace.

Students will have the opportunity to choose from different pathways including Business, Finance, Office Administration, and Technology, Each of these pathways will immerse students in their subjects, challenging them to apply critical, analytical, and problem solving skills to a variety of business topics and applications. Communication and presentation skills will be developed by each student— building their confidence and experience in presenting to small and large groups. The experience will motivate each student to be the best they can be and will transcend their entire experience at Haverhill High School.

The Academy is building on a successful and popular curriculum that has been in place at Haverhill High School for over ten years. The EBiT faculty, in addition to being successful educators, has worked in different business settings bringing real business experiences to the classroom.

Please refer to the **Four Year Course Sequence for 2010-2011** on the next page for course offerings.
