

GUIDANCE SERVICES

Every student at Haverhill High School is assigned to a guidance counselor who will follow him/her through their entire high school career. The guidance staff will support the student and guide him/her on the best path to graduation and future success.

Counselors are available to meet with students by appointment or as needed for academic, social, or emotional issues. Counselors will also meet with every student in the spring to review and discuss class placement and schedules for the following school year.

Student/Parent Appointments

- Students should stop by the guidance office in the L-Wing before or after school or during their lunch to fill out a request for an appointment with their counselor. Appointments are made within 24 hours of their request or sooner if it is an emergency.
- Parents are welcome to call between 7am – 2pm on school days to speak with their child's counselor or to schedule an appointment. **Please be sure to call ahead for an appointment to ensure the counselor's availability.**
