## Group Level / Class Rank

**Course levels** at HHS have been assigned to one of four group levels. Each group level is then assigned a group level value which is used in calculating quality points.

**Class rank** at Haverhill High School is weighted and determined by a quality point calculation. To calculate quality points one must multiply the grade point value by the weight of the group to which the course is assigned. The quality points are then divided by the total credits attempted to determine a Quality Point Average (QPA).

Class Level	Group Level	Value/Weight
<i>Advanced Placement/Early College (Dual Enrollment)</i>	Level 1	3
<i>Honors Accelerated</i>	Level 6	2.7
<i>Honors</i>	Level 2	2.5
<i>College Preparatory</i>	Level 3	2

## Grade Point Average (GPA)

**GPA** at Haverhill High School is unweighted. This means GPA is a straight average of a scholar's final grades in all courses taken over the span of his/her high school career based on the earned GPA value for each course.

## Advanced Placement

Haverhill High School offers **23 Advanced Placement (AP) courses** (subject to availability):
